RIPAN'S

The simplest remedy for indigestion, constipation, biliousness and the many ailments arising from a disordered stomach, liver or bowels is Ripan's Tablets. They have accomplished wonders, and their timely use removes the necessity of calling a physician for many little ills that beset mankind. They go straight to the seat of the trouble, relieve the distress, cleanse and cure the affected parts, and give the system a general toning up. The Five Cent package is enough for an ordinary case. The family bottle, 25 cents, contains a supply for a year. All drug stores sell them.

HARDENED HEARTS

The President's Appeal in the Name of Humanity Was Not Heeded.

BOTH SIDES HOLD OUT

Miners Renew Their Offer to Arbitrate Differences, But Operators Reject It.

Notable Conference Left Affairs Where They Were, But Stirs Public Interest.

President Roosevelt's statement to the operators and miners, asking an adjustment of their differences, closed with the following words: "In my judgment, the situation imperatively requires that you meet upon the common plane of the necessities of the public. With all the earnestness there is in me, I ask that there be an immediate resumption of operations in the coal mines in some such way as will, without a day's unnecessary delay, meet the crying needs of the people. I do not invite a discussion of your respective claims and positions. I appeal to your patriotism, to the spirit that sinks personal considerations and makes individual sacrifices for the general good."

Washington, Oct. 4.—The coal conference between the president and representatives of the operators and miners came to an end at the temporary White House yesterday afternoon with a failure to reach an agreement. Apparently the rock upon which the conference split was recognition of the miners' union.

The president had urged the contending parties to cease strife in the interests of the public welfare. The miners, through the president of their union, had expressed a willingness to submit differences to the arbitration of a tribunal to be named by the president and to enter into an agreement to abide by terms fixed by the arbitrators for a period of from one to five years. The employers, through the presidents of the railroad and coal companies and a leading independent mine operator, had squarely refused arbitration, had denounced the miners' labor organization as a lawless and anarchistic body with which they could and would have no dealings; had demanded federal troops to ensure complete protection to workers and their families in the mining region, and court proceedings against the miners' union, and had offered, if the men returned to work, to submit grievances at individual collieries to the decision of the judges of the court of common pleas for the district of Pennsylvania in which the colliery was located.

There the matter closed. Both the miners and the operators say that the struggle will continue.

It was a remarkable chapter in the economic history of the country that was written yesterday. For the first time the president of the republic had intervened directly between the great forces of capital and labor in an effort to avert what he himself regarded as a great national calamity. The result was to bring the principals in the great controversy face to face with the whole country eagerly intent and watchful of their doings. Technically the issues between the two great forces stand as they did before the president summoned the representatives of the contending forces to the national capital and, forgetting his own acute suffering, besought them for love of the great country wherein they dwelt, and out of pity for the countless throng of suffering poor, to adjust their differences and work together in peace for the common weal.

The views of the contenders in the great industrial struggle were so extreme and wide apart that there was no middle ground possible, and so the conference came to an end without any agreement for its continuation. The conference had lasted six hours, including a recess of three hours between the morning and afternoon sessions taken to enable the miners and operators to prepare a written response to the president's appeal.

The immediate parties to the strike say they will continue as heretofore. What course the administration will take next no one is prepared to say. One of the operators as he left the White House with closely set jaws was asked regarding this and replied: "If anyone knows what the president will do next that is more than I know." Fourteen men, including the president, were in the second story front room at the temporary White House during the momentous conference. President Mitchell and three of his district leaders represented the miners, and five railroad men and one independent mine operator the employers. With the president were Attorney General Knox, Commissioner of Labor Wright and Secretary Cortelyou. All the cabinet save the attorney general kept aloof during the conference, but between the two meetings and afterward several of the president's advisers called upon him to talk over the

situation. During the conference the president listened to both sides with the greatest eagerness. "Immediately after its adjournment his physicians, Surgeon General Hixey and Dr. Lung, insisted on taking an examination of his wound and redressing it. Apparently no ill-effects had resulted from the excitement of the day, and after a late call at 8 o'clock Dr. Lung announced that the president's condition was satisfactory."

Mr. Mitchell last night said that the strike would continue as before, now that there had been a failure of the conference, and he continued confident of winning. The president, he said, had asked them to see that there was no violence and they had promised him to do all in their power to prevent it. The representatives of the railroads likewise said the fight would continue as before. They said they would demand protection and that if that were given they were confident they had enough men to mine all the coal that was needed.

At the White House press representatives endeavored to get an authoritative statement giving the views of the president on the proceedings and result of the statement. An official statement giving a stenographic report of the formal statements and proceedings was made public, but no announcement was made that the president had no comment to make thereon. The suggestion was made in administration circles, though not as coming from the president, that the result had been to arouse and concentrate public sentiment. One of the president's advisers who was seen intimating that some consideration had been given before the conference to the question of the future course of the administration in event either party refused absolutely to do anything toward a settlement. He intimated that there was a possibility the interstate commerce commission might be able to take some steps with respect to carrying charges on the anthracite coal roads. Still, public sentiment, he added, was the chief resource of the president as to both parties to the strike.

A MINER SHOT

Deputy at Wilkesbarre Narrowly Escapes Lynching.

Wilkesbarre, Pa., Oct. 4.—There was an exciting time at the Nottingham mine of the Lehigh & Wilkesbarre Coal company last night. A negro deputy came out of the stockade, when he alleged, he was assaulted by some strikers. The deputy shot into the crowd and a bullet struck Joseph Yarkmana, a striker, in the abdomen. After firing the shot the negro retreated to the stockade. Soon a large crowd gathered and they threatened to tear down the stockade and take the negro out and hang him. Colonel Dougherty of the Ninth regiment dispatched six companies to the scene at once. The troops arrived just in time to prevent a serious riot. The mob was dispersed. The negro deputy who did the shooting was handed over to the civil authorities today.

The news from Washington that no agreement had been reached at the conference had a depressing effect on all interests here. Some of the local operators who were interviewed think that the miners, now that all hope of arbitration seems to be gone, will gradually return to work. The strike leaders are of the opinion that the struggle will continue and that the cold weather will yet compel the operators to make concessions.

Withheld Confession.
Manominee, Mich., Oct. 4.—Joseph Beck, the blacksmith, has confessed that he murdered the little girl, Julia Wozniak and says he had no accomplice. The fact of the confession was withheld by the officials for fear citizens would attempt to lynch the prisoner.

Destructive Tornado.
Memphis, Tenn., Oct. 4.—A tornado struck Indiana yesterday, wrecking a number of houses and fatally injuring Miss Florence Morris. A number of others were more or less seriously hurt. Many farmhouses in the vicinity were destroyed.

Train Turned Over.
San Antonio, Tex., Oct. 4.—The Southern Pacific through California passenger train plunged into a washout yesterday. The engine, mail car, baggage car and two passenger coaches were turned over, but no one was injured.

Ed. O'Reilly Out.
Canon City, Colo., Oct. 4.—Ed O'Reilly, slayer of Bob Ford, who murdered Jesse James, was released from the penitentiary here yesterday, his committed term of twenty years having expired.

BROUGHT TO TIME

New Orleans Merchants Bring Warring Factions Together.

STRIKE OF THEIR OWN

Retail Merchants Threaten to Close Their Stores If Street Railway Strike Continues.

Prospect of Throwing Thousands of Clerks Out of Employment Has Its Effect.

New Orleans, Oct. 4.—The street-car strike situation took a new turn yesterday afternoon when the big retail merchants of the city took steps to have some kind of an agreement reached. Retail trade has suffered greatly, and yesterday afternoon the merchants met at the St. Charles hotel and decided that unless the strike was called off by tonight they would all close their establishments indefinitely, throwing out of employment about 5,000 clerks. The merchants then turned their attention to effecting some kind of a settlement, and after a conference with the mayor, railway officials and car men separately, finally brought about a conference of all three elements. This began at 7 o'clock and lasted until nearly 9 o'clock. It was the first time the railway's officials and the entire executive board of the union had met since the trouble began. President Pearson of the railway company submitted a proposition that the men return to work and then arbitrate the alleged violations of the old agreement, a new proposition to be considered if the agreement is declared to have been violated, the rate of wages and hours to date from the time the men go back to work. The car men's attorney, speaking for them, urged their demand, which is in effect the same, except that the men shall be paid at the rate of 25 cents for eight hours from the moment they return to work, the old agreement to hold good if it was found not to have been violated. The car men's committee went back to the union hall to submit the proposition to the men.

Before the conference of the three elements was resumed the merchants' committee began work on a compromise proposal and got the car men's committee to agree to it at 11 p. m. They then went into conference with the railway's officials. The proposition is that men go back to work today, that the violations of the old agreement be submitted to arbitration, and that if the agreement is declared violated, the decision to carry with it a wage scale of 23 cents an hour and eight hours. This is a reduction of 2 cents an hour from the original demand. The railway company will not consent to any arbitration on the question of wages or hours.

JUST LIKE HOME

Kentucky Mountaineers in Oklahoma Start Trouble.

Guthrie, O. T., Oct. 4.—At Crescent City, an inland town eighteen miles northwest of Guthrie, a fierce battle was fought between the officers of the town and four Brown brothers, Mal, Don, Bill and John, prominent farmers and ranchers of that vicinity, last night. As a result, Mel, Burgess, another farmer, is reported dead, Mal Brown seriously wounded and several others injured. The Browns are mountaineers Kentuckians who have resided in this county since the opening. Trouble has been brewing there for some time, originating two weeks ago in a fight with railroad graders.

Interesting Combine.

Chicago, Oct. 4.—To prevent the alleged tobacco trust from monopolizing the raw material, the independent cigar manufacturers of the country have started a \$3,000,000 stock company to fight the combination. It is the intention to buy leaf tobacco direct from the grower and thus cut out the profits of the middleman. As this is the method pursued by the alleged trust, the promoters hope that by adopting it they can find a way of successfully stopping the inroads of what they deem their common foe.

Took the Town.

Tucson, A. T., Oct. 4.—A party of bandits, supposed to have been led by Bravo Juan, made a daring raid on the town of Ranchi in the state of Sonora, Mexico, near Hermosillo, according to advices just received here. The bandits after placing guards outside the town, rode into the business section and took possession, looting stores and houses. The inhabitants were terrorized and offered little resistance.

A Jealous Husband.

Springfield, Ill., Oct. 4.—In a fit of jealousy Luther McNeer shot and killed his wife, Essie McNeer, and then committed suicide at his home yesterday by firing three bullets into his breast and swallowing two ounces of carbolic acid. They were married six months ago.

The Slaughter Begins.

Des Moines, Ia., Oct. 4.—Glenn Hunter, aged twelve, was injured, probably fatally, yesterday in a football game.

CONFIDENCE INCREASES

Indiana Republicans Predict a Rosy Outcome.

Indianapolis, Oct. 4.—As the campaign progresses the Republicans grow more confident of a large victory. Auditor of State Hart does not think the majority will be less than 25,000, and if the vote comes out he thinks it will be 10,000 larger, at least. Attorney General Taylor, one of the oldest politicians now in the field, believes the Republicans will win by a big majority. George P. Heywood of Lafayette, one of the well-known leaders of the Teut district, who is here trying a lawsuit, says the Democrats are without hope and almost without party, as they are apparently unable to agree on the leading issues. He believes that a large majority is in store for the Republicans. At the state committee rooms nothing less than 20,000 is thought of. The superior organization of the Republicans and their more businesslike way of doing things is already beginning to tell. The coming week will witness greater activity than ever.

Picturesque "Mother" Jones, the best known labor organizer in the United States, was here last night en route to West Virginia. She has been making speeches in Iowa for the American Federation of Labor. Organized labor everywhere, she declared, is deeply interested in the anthracite strike. "Every strike affects organized laborers," she said, "and this is generally realized in connection with the anthracite strike." "Mother" Jones was included in the injunctions by Judge Jackson to prohibit the organizers from talking to the West Virginia miners either privately or in public. But she has gone right ahead talking to "her boys" as she calls them. "Why, I don't mind the injunctions," she said. "Every time you set your foot down in West Virginia you step on an injunction. You don't need to have your shoes shined because of the injunction papers." "Mother" Jones has grown gray in the service of the miners, by whom she is almost worshipped as a benefactress.

The following synopsis of the coal strike appeared today in the United Mine Workers' Journal: "Anthracite strikers are standing firm and like clan Alpine's pine: 'The firmer it roots them the harder it blows.' Deputies are active, and non-striking miners are joining the strikers. The strike looks bright. All scenes in West Virginia. The brutality exhibited in evicting the strikers' families was never surpassed in Ireland, but the men and women are undaunted." This synopsis is a portrayal of the feeling of confidence that has dominated the miners since the beginning of the strikes. Apparently they never had an idea they would lose, which bears out the report that they had made preparations a long time ahead.

Charles F. W. Neely of Muncie, who was convicted of complicity in the Cuban postal frauds, has returned to Indiana. He is now at Muncie and will remain there several days. His visit, he says, is purely of business purpose. After a trip to California to meet his wife, he will return to Cuba, where he has business interests. He thinks well of the future of that island. Neely has changed but little, and it is said that he is greeting his old friends with the smile and cordial manner that caused him to be known in the old days as Charles "Fair-Weather" Neely.

A strong race prejudice is growing up in the northwestern part of Indianapolis. A few nights ago as a young work-girl was crossing Military park on her way home a negro man caught her in his arms. As she tore away he knocked her down. He was arrested and has since been declared insane. This has increased the feeling between the negroes and whites of the neighborhood.

New Macedonian Cry.

Sofia, Bulgaria, Oct. 4.—The organ of the Macedonian committee has published a manifesto of Colonel Jankoff, leader of the Macedonian insurrection, announcing the revolution and calling on all Macedonians to take up arms in behalf of the country. The colonel points out that all the Balkan states won their liberty by fire and blood. At the same time he urges that considerate treatment be meted to peaceful Mussulmans.

The Deadly "Searcher."

Rockville, Ind., October 4.—Anthony Tasso, an Italian, thirty-nine years old, was killed by a bicycle rider at Coville. He turned out to pass two buggies. He was thrown off his seat and hit his head on the ground. He died in twenty-five minutes from concussion of the brain. The bicyclist mounted his wheel and rode off. His identity is not known.

Look for Big Crowd.

Washington, Oct. 4.—The railroad companies are figuring on a heavy traffic to Washington on account of the encampment next week. The expectations are based on the belief that the total attendance next week will exceed that of ten years ago, when the number of veterans and other visitors in Washington reached an aggregate of 297,000.

Huntsman Killed.

Madison, Ind., October 4.—Albert Schelke, aged thirty, was instantly killed yesterday by the accidental discharge of a gun in the hands of Jos. Maurer. They were preparing to go hunting.

THE JURY DISAGREED

Trial of Rush County Murder Case Did Not Terminate Satisfactorily to Public.

State Against Rolla Clingman for Murder of Stewart Miller Was a Mistrial.

Rushville, Ind., Oct. 4.—The jury in the case of Rolla A. Clingman, charged with the murder of W. Stewart Miller, after being out twenty hours, failed to agree. The case went to the jury at 5 o'clock Thursday evening and the jury reported its disagreement late yesterday afternoon. The members stood eight for conviction and four for acquittal, and there they remained immovable. The people are not pleased with the situation, as there have been many murders here in the last few years, and only a few convictions in the minor degrees.

A FATAL WRECK

Two Extra Freights Come Together On the Va. dalia.

Brazil, Ind., Oct. 4.—Two extra freight trains on the Vandellia line came together yesterday with a terrific crash one mile east of Reelsville. George Cole of this city is dead, while John Cunningham of Terre Haute, engineer of the westbound freight, F. R. Booth of Terre Haute, fireman of the eastbound freight, and H. J. Reeves, conductor of the latter train, also of Terre Haute, were rescued from the debris so badly injured that it is believed they will die. The accident occurred at a steep grade. Both trains were extras, the westbound running as a double-header and being drawn by two huge engines. Witnesses say this train was coming down the grade at a high rate of speed, and when the crash came wreckage was thrown fully fifty feet into the air. The engine of the westbound train rolled down the embankment. The boiler of the eastbound engine exploded after the crash came. The other engine was riddled so that it resembles a huge piece of scrap iron. Many cars were reduced to kindling.

Deadly Powder Explosion.

Valparaiso, Ind., Oct. 4.—A powder explosion at the Aetna powder plant near Miller Station killed two men—Charles Helman and Henry Schwartz—regretted and injured many others. The explosion occurred in the part of the plant where the men were working, and was immediately followed by fire that soon consumed that part of the building.

Koskies Sentenced.

La Porte, Ind., Oct. 4.—John Koskies was found guilty by a jury in Judge Richter's court yesterday, and received an indeterminate sentence of from two to fourteen years. He was charged with attempting to kill his wife, whom he assaulted with a knife, inflicting twenty wounds. He narrowly escaped lynching.

Baby's Narrow Escape.

Madison, Ind., Oct. 4.—The three-year-old son of Charles Ferrell fell into a well thirty-five feet deep, and with ten feet of water. He held to the pulley rope below until rescued by the father, who was let down by means of a rope. The child was only slightly scratched, but was nearly exhausted.

Crushed to Death.

La Porte, Ind., Oct. 4.—Charles Merrill of this city was caught under an iron tank weighing four tons at the Rumely shops in this city yesterday, and was crushed to death. Merrill's father was foreman of the shop in which he was employed and witnessed the accident which cost the life of his son.

A BRIGHT SHOWING

Trade Conditions Are Almost Uniformly Favorable.

New York, Oct. 4.—Bradstreet's weekly review of trade today says: In the almost uniformly favorable returns of nine months financial, commercial and industrial operations, the only depressing note is the growing acuteness of the coal situation, which has passed out of local and state cognizance and become of national importance and interest. The returns of failures, clearings and the other items bearing upon the results of the three-quarters of the year's operations at hand point to conditions having been largely favorable. Activity in stock speculation and comparison with a period a year ago, when deplorable occurrences at Buffalo had thrown a damper upon general business activity, do not entirely explain the immense increases shown in widely separated sections, and the only remaining conclusion is that unprecedented fall trade, the moving of larger crops at higher prices, immense cattle receipts and unsurpassed industrial activity are chargeable with the numerous and heavy gains shown. Failure returns too are almost entirely favorable, the number of embarrasments being the smallest, with two exceptions, in ten years, and the liabilities being the lightest, with one exception, in twenty years.

Gen. Torrance Arrives.

Washington, Oct. 4.—General Eli Torrance, the commander-in-chief of

GENERAL TORRANCE, the Grand Army of the Republic, arrived in Washington last night.

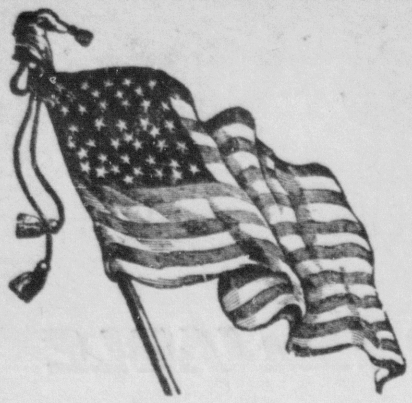

REAL ENJOYMENT.

The woman who reads this will understand to the full what Mrs. Tipton meant when she says: "I am enjoying good health." It takes a person who has been made wretched by sickness to understand the joy of health.

There are very many women who suffer as did Mrs. Tipton, who might be cured as she was by the use of Dr. Pierce's Favorite Prescription. It establishes regularity, dries the drains which weaken women, heals inflammation and ulceration, and cures female weakness. It makes weak women strong, sick women well.

"It is with pleasure I recommend Dr. Pierce's medicine," writes Mrs. Nora Tipton, of Cropper (Cropper Station), Shelby Co., Kentucky. "You remember my case was one of female weakness and weak lungs. I had no appetite and would often spit blood; was confined to my bed almost half of the time and could hardly stand on my feet at times for the pains through my whole body and system. My husband had to pay large doctor bills for me, but since I have taken four bottles of Dr. Pierce's Golden Medical Discovery, four of Favorite Prescription and three vials of Pleasant Pellets we haven't paid any more doctor bills. It has been seven months since I stopped using Dr. Pierce's medicines and I can never praise these medicines too highly, for I have received so much benefit. I pray that many who suffer as I did will take Dr. Pierce's medicines. I am sure they will never fail to cure when given a fair trial. Everybody tells me I look better than I ever saw me. I am sure I feel better than I ever did before."

"Favorite Prescription" has the testimony of thousands of women to its complete cure of womanly diseases. Do not accept an unknown and unproved substitute in its place. Dr. Pierce's Pleasant Pellets are a ladies' laxative. No other medicine equals them for gentleness and thoroughness.

HON. CHAS. W. MILLER, the best attorney-general of Indiana, will speak at Society Hall tonight. Come out and hear him.

INSTEAD of "the Kansas City convention" the democrats are now alluding to it as "the last democratic convention," and "the democratic platform" has taken the place of "the Kansas City platform."

THE policy of the Republican party is resulting not only in wiping out the state debt which was a legacy from Democratic administrations of state affairs, but in freeing the farms and homes of the state of mortgages to an extent never before known. In fact, the Republican party is distinctly a debt-paying party in national, state and local government, and in private affairs.—Steuben Republican.

TOWNSHIP CONVENTION.

Nominations Made for Township Offices

A goodly number of republicans of Jackson township met in the council chamber this afternoon to nominate candidates for township offices.

Order was called by the township secretary H. C. Dannelte and D. M. Hays was chosen chairman and J. W. Massman, secretary.

The following candidates were nominated:

For justices of the peace—E. W. Bligh, A. H. Hoover and James Montgomery.

For constables—J. H. Hopewell, Lewis Thomas and Hardin McGeary.

For advisory board—C. W. Milhous, Dr. W. M. Casey and John Oestling.

Road supervisors—1st district, Oscar Filar; 2nd district, George Ebaugh; 3rd district, Joseph N. White; 4th district, William Shepard.

POLITICAL GOSSIP.

Charles W. Miller, of Goshen, candidate for attorney general, was at the Republican Speakers' Bureau yesterday to get a line on some of his dates. Mr. Miller remarked that he has been surprised at the general interest manifested by Republicans in this campaign. "The farmers are coming in to hear speeches," he said, "and there has not been a Republican meeting held of any importance that has not been well filled and most successful in every way."—Journal

Hear Hon. Chas. W. Miller, candidate for attorney general at Society Hall tonight at 7:30. Mr. Miller is a strong man and will make a speech that will be worth your while to hear.

F. A. Cotton was here this morning on his way to Indianapolis from a tour of the Third district. Mr. Cotton is the republican candidate for superintendent of public instruction and is one of the best known and most thorough educators of the state.

Henry Bruning was in town today shaking hands. You know Henry is a candidate. He would like to draw the recorder's salary for another four years. But we predict that the voters of Jackson county will say by their votes that Henry has had enough and will put Charles F. Robertson in charge of the recorder's office.

THAT Congressman Griffith is unpopular with many democrats of the district needs no argument. Many of the democratic papers of the district have openly criticised him and have demanded a stronger and more capable man. They know that the district is poorly represented and has been since the death of Wm. S. Holman. Here is a plain statement made by the Aurora Bulletin, one of the leading democratic papers of the district: "For several years the people of the district have borne the halting, hesitating policy of Congressman Griffith with silence and little comment, but you might as well try to stem the Ohio as to sway the decision of the people when their minds, after years of observation, have been made up."

IN spite of President Roosevelt's strong presentation of the crisis that is upon the country, the coal operators peremptorily refuse to modify their position. The President personally appealed to the principals in the strike controversy to consider "the urgency and terrible nature of the catastrophe impending over a large portion of our people in the shape of a winter fuel famine," but without the slightest effect on the operators. Mr. Mitchell, representing the strikers, offered to submit the entire case to arbitration and abide by the result in every particular. All essential points were thus conceded by Mitchell, while nothing was conceded by the operators. The full responsibility of the continued strike is now located. President Roosevelt has proceeded impartially and conservatively to test the views and feelings of both sides directly engaged in the calamitous strike. The conference leaves the emergency more threatening than ever. It is not known what President Roosevelt's next step will be, but he is a man who acts vigorously and promptly. He will have the full and enthusiastic support of the country in asserting the rights and protecting the safety of the people.—St. Louis Globe Democrat.

SCHOOLS OF THE STATE.

Annual Report of State Superintendent Filed.

Frank L. Jones, State superintendent of public instruction, has prepared his annual report for the year ending July 31, 1902. The report shows many interesting features of the schools of the State, and was completed Friday, several weeks in advance of former years.

The report shows that the total school fund last year was \$10,443,885.32, of which the schools received 6 per cent., distributed semi-annually. There was an addition to \$53,558.99 to this fund last year, principally from fines. Of the total fund \$821,822.96 is lying idle in hands of county auditors. Efforts will be made to have this money loaned out.

The total expenses of maintaining the schools of Indiana for last year, including all forms of expenditures, was \$8,583,354.98. The increase in the school attendance last year over the preceding year was 2,802 pupils. Total number of pupils admitted to schools was 560,224. There are 9,987 school houses in the State, only three of which are log buildings. The log structures are in Clark, Dubois and Jennings counties.

The report shows that the average daily wages of teachers in all common and high schools was \$2.51. The average in cities was \$2.99 and in country districts \$2.33. The average length of terms was 146 days—179 in cities and 126 in country. Township trustees were paid \$82,758.54 for managing educational work. City school boards were paid \$42,911.04 for similar work. The amount paid for superintending schools in cities was \$199,195.95, in towns \$39,553.06, in townships \$16,463.11; county superintendents \$92,000; total, \$347,212.12.

Condition of State Banks.

A report on the condition of State banks on Sept. 15 has been prepared in the State auditor's office. There were 111 banks at that date, while there were 108 last October. The combined deposits in the call of Sept. 15 were \$24,026,865.36, as against \$20,739,253.45 a year ago. With a combined capital stock of \$4,949,010.33 there were profits under the last report of \$1,451,434.62, with an expense of only \$108,802.48. The loans and discounts amounted to \$18,220,999.25, as against \$16,036,799.75 a year ago. The total resources on Sept. 15 amounted to \$30,580,023.63, as against \$26,898,518.36 on Oct. 31, 1901.

Redding Township Nominations.

The republicans of Redding township met at Rockford Saturday afternoon and made the following nominations:

For justices of the peace, Woodford Loebline.

For constable, John W. Fullen.

For road supervisors, Henry Lauster and Harrison Foist.

For advisory board, R. R. Short and John McClintock.

Coroner's Verdict.

After viewing the dead body and examining the witnesses I find that Perry Baker came to his death from chronic organic heart disease.

H. R. KYTE
Deputy Coroner.

The excitement incident to traveling and change of food and water often brings on diarrhoea, and for this reason no one should leave home without a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. For sale by C. W. Milhous.

Geo. Hays, of Pleasant Grove, left Friday afternoon over the B. & O. for Washington City to attend the G. A. R. encampment. About dozen others transferred from the Southern Indiana left for Washington on the same train.

Get a free sample of Chamberlain's Stomach and Liver Tablets at C. W. Milhous drug store. They are easier to take and more pleasant in effect than pills. Then their use is not followed by constipation as is often the case with pills. Regular size, 25c. per box.

An ancient remedy in England is an old manuscript copy of a part of the Bible in Latin. The London Chronicle says it was used at the coronations of English sovereigns 300 years before the "stone of destiny" was brought from Scone to Westminster by Edward I.

If this be true, the use of this Bible for the purpose dates back to the year 1000. It is a quarto of 217 leaves, containing the four gospels, and seems from the style of the writing and illuminations, which are very beautiful, to have been made about the end of the ninth century.

It narrowly escaped destruction in the fire at Ashburnham House in 1731, of which it bears evidence in its crumpled leaves and singed margins. There is some evidence that the son of Edward the Elder, Athelstan the Glorious, who was king of the West Saxons from 925 to 940, owned this Bible and gave it to the church of Dover.

When you wake up with a bad taste in your mouth, go at once to C. W. Milhous drug store and get a free sample of Chamberlain's Stomach and Liver Tablets. One or two doses will make you well. They also cure biliousness, sick headache and constipation.

THE REDDINGTON SETTLEMENT.

Some of the Early History of that Village.

EDITOR SEYMOUR REPUBLICAN:

The early settlers in the immediate vicinity of Reddington were different families of near relation. Among them were Isaac Lewis, Samuel Prothero, John Prothero, Thomas Prothero, James Bristow, William Bristow, G. W. Hays and John Hays. Isaac Lewis entered one hundred and sixty acres of land on which the town was afterward laid out. He built a house on the hill, where Hazzard now lives, in 1823. Becoming dissatisfied he moved away before the end of the year. In 1824 John Prothero and Thomas Prothero came from Kentucky and bought the land of Isaac Lewis, John taking the north eighty acres and Thomas Prothero taking the south eighty acres. John Prothero moved into the house that Lewis built and Thomas Prothero built a house near the old school house, on what is now the north part of Richard Brooks' lot, and there his three oldest children were born of whom I was the youngest. I was born in December, 1830, and the oldest of the three was born in 1825. So there must have been at least two houses there at that time.

I presume the correspondent is correct as to the date of the building of Wm. Bristow's house. I know that the most of the sawed lumber was sawed with what was called a whip saw. Thomas Prothero was a carpenter and did most of the carpenter work up to that time and hired two of his nephews, Mason Prothero and John Prothero, from near Zenas, to do the sawing. They did whip sawing there after I was six or seven years old.

I suspect the correspondent is correct also in regard to the man that helped to build the house and that he was seventeen years old at the time and that he is still living. He must be 87 years old and I think it is Joseph Smith as that is about his age and he was around there about that time and did work there.

John Prothero and Thomas Prothero had the town laid out in the center between the two eighty acre tracts. All the families herein named were connected as brothers-in-law.

The oldest house standing now at Reddington is the house across the road from the present store house and the next oldest is the old school house built in 1848 by W. W. Brown and was built for some temperance lodge up stairs and for a store below. The house Oliver Sweeney owns and the Denison house on the hill south-east of the store are about as old. James Bristow owned the farm where R. Baldwin lived and sold it to Easter. Samuel Prothero owned the place now owned by Smith Gilbert. John Prothero sold his place to John Sullivan in 1839. Thomas Prothero sold his place to William England in 1837. As far as my memory serves me the foregoing statements are very near correct.

J. B. PROTHERO.

Heaviest October Rainfall.

The total precipitation as recorded by the new Weather Bureau rain gauge, during the 24 hours ending at 8 o'clock, this morning, was 2.25 inches.

This is the heaviest October rainfall of record at this station, and it about "evens up" for the deficiency of ten inches with which this year began. And as we write there seems to be more "in sight."

JOHN AULD FORSYTHE,
U. S. Weather Bureau.

What of the Season?

The fall season has opened in a way which indicates the business of the closing months of the year will be entirely satisfactory to the majority of business men. There are some who will fail to get what they thought was their due in the run of business. Some of these lack the energy to go after business, and others fail to appreciate the opportunities that are slipping by. The man who sizes up a situation and seizes the opportunity will get the benefit, while the one who thinks the business will come just because he is entitled to it may be disappointed. The manufacturers have been producing that which will surely attract the attention and win the custom of the people of the retail districts. The merchants have sought through the large centers for the most attractive goods to offer to their trade. The result is the best stocks ever shown. Some of the prices are higher; in some cases it is only the qualities that are higher or the goods that are more beautiful. Whatever may be the cause, the buyers of goods are anxious to have the best for wear or use, and there are more of them with cash to satisfy their wants than ever before. The coming three months will be as lively as any in the history of retailing. The opportunities for the business men are therefore greater. The chance for the hustler will improve with each successive day of lively trade, and the man who knows how to plan for tomorrow's selling should keep at it to insure many days of constantly increasing commercial interest. The one who watches the trend of the times will realize the advantage of being wide awake and persistent in order to reach the greatest volume of business for the year.—Advertising World.

THE OLD FOLKS AT HOME

Are Never Without Peruna in the House
for Catarrh, Coughs and Colds.

MR. AND MRS. PETER HOFFMAN, KYLERTOWN, PA.

MR. PETER HOFFMAN, Kylerstown, Pa., writes:

"I was deaf for five years and could find no help. I was completely deaf, was afflicted with shortness of breath, bronchitis, trouble in the throat, so that I was in misery. Through one of Dr. Hartman's almanacs I decided to try Peruna, and bought a bottle.

"I took three bottles and now feel real well; my hearing is good again; I can breathe without difficulty; my throat is no longer inflamed. I followed all the directions, and can now say that Dr. Hartman's Peruna has cured me.

"I recommend it to all suffering with catarrh. I am seventy-one years old, have an appetite again and can work. I feel ten years younger."

When old age comes on, catarrhal diseases come also. Systemic catarrh is almost universal in old people.

This explains why Peruna has become so indispensable to old people. Peruna is their safe-guard. Peruna is the only remedy yet devised that meets these cases exactly.

Such cases cannot be treated locally; nothing but an effective systemic remedy could cure them. This is exactly what Peruna is.

Mrs. Peter Hoffman also writes:

"I was sick for many years; suffered with the liver, stomach and kidneys. I had seven doctors, but none could cure me, as they did not know what ailed me.

"Every one who saw me said that I could not live very long. I began to take Peruna and grew better every day. The severe pains in the stomach have disappeared. I am now well and have a good appetite. I am seventy years old and can do my work without getting tired.

"Peruna is the best medicine in the world for catarrh. Your good Peruna has saved my own and my husband's life."

Mr. Robert Metters, of Murdock, Bass Co., Neb., Box 45, writes:

"I had catarrh from my head all through my system. I took Peruna until I was entirely cured. I am eighty-three and a half years old, and feel as young as I did ten years ago.

"I visited recently among some old friends, who said I looked as young as I did twenty years ago."

Address The Peruna Medicine Co., Columbus, O., for a free catarrh book.

Devil's Island.

No subject has been so uppermost in the minds of the two continents in recent years as has been the Dreyfus case, which terminated in the second conviction, followed by the pardon of the gallant French captain. The story of the accusation, arrest, degradation, imprisonment and final re-trial of Dreyfus is one of the greatest romances of history. This story has been woven into a dramatic production by Vera DeNoie and Arthur Hall. The action of "Devil's Island" is brisk from start to finish, and a particularly efficient cast represents the different characters, with scenic effects that outlive those of most similar plays. This truly great production will be seen here next Wednesday night. Do not miss going.

Hunting Permits.

Z. T. Sweeney, State Game and Fish Commissioner, is receiving requests for hunting permits from many who received them last year. The commissioner says this is not necessary, as the permits issued last year are good until revoked by the Legislature.

RAILROAD RUMBLINGS.

Engineer Ted Lehan has returned to Seymour after a visit with friends and relatives. He was accompanied by his wife and their nephew, Master John Connolly of this city, who will spend the winter with them.

Beware of Ointments for Catarrh that Contains Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine it is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by druggists, price 75c per bottle. A Typical South African Store.

O. R. Larson, of Bay Villa, Sun days River, Cape Colony, conducts a store typical of South Africa, at which can be purchased anything from the proverbial "needle to an anchor." This store is situated in a valley nine miles from the nearest railroad station and about twenty-five miles from the nearest town. Mr. Larson says: "I am favored with the custom of farmers within a radius of thirty miles, to many of whom I have supplied Chamberlain's Remedies. All testify to their value in a household where a doctor's advice is almost out of the question. Within one mile of my store the population is perhaps sixty. Of these, within the past twelve months, no less than fourteen have been absolutely cured by Chamberlain's Cough Remedy. This must surely be a record." For sale by C. W. Milhous.

JUST IN TIME.

DOWN IN HEALTH AND STRENGTH, NERVOUS, IRRITABLE, ACHE ALL OVER, A DEPRESSED CONDITION RAPIDLY CHANGED.

Mrs. Edgar Howerton of 131 south Cleveland St., Seymour, Ind., says: "I was a victim of severe nervousness and was kind of run down in health. I heard of Dr. A. W. Chase's Nerve Pills and thought I would test them and got a box of the pills at A. J. Pellens drug store and now I am pleased to say my health in general is greatly improved. I consider these have brought about this change in my condition."

ONE MAN'S LUCK.

Steered Into a Junior Partnership by a Chance Gust of Wind.

"Speaking of taking in partners," said a downtown business man, "our junior was, you might say, blown in on us, and I saw him started in our direction, though I had no idea of it at the time."

"Going down town one summer morning on a Ninth avenue elevated train I saw sitting opposite to me a young man who caught my fancy, a substantial, earnest, straightforward looking chap, whose looks I liked first rate. He was reading a paper, and presently he tore off from his paper an advertisement leaf that he didn't want and threw it out of a window or tried to, for as a matter of fact it didn't go out. A gust of wind with just the right twist to it came along at just that moment and blew the paper back, to fall on a vacant seat next to him."

"And as it fell something in it caught his eye, and he picked up that part which he had just been trying to throw away and began earnestly to read it and ended up by folding it carefully and putting it in his pocket."

"About four minutes after I'd got in here that morning this same young man walks in and applies for a place that we had been waiting for some body to fill. Our advertisement for a man for it was in that paper which I had seen, this young man try to throw away, and which a gust of wind, by one chance in a million or more, had blown back upon him and in such a manner as to fix his attention."

"As a matter of fact I hadn't liked the young man's act of throwing the paper out of an elevated car window. A paper floating down and around as that would do might frighten horses and lead to no end of trouble and lots of damage, but no one man thinks about everything, and he'd learn better about this, I knew, and so as a matter of fact I took this young man on the spot on my first impressions of him. He far more than made good and in due course of time he came into his junior partnership, literally and truly blown into it."

"Sort of queer, eh?"—New York Sun

MAKE IT PUBLIC

PUBLICITY COUNTS. THAT'S WHAT THE PEOPLE WANT. SEYMOUR EXPRESSION ON THE SUBJECT.

Make it public. Tell the people about it. Gratitude promotes publicity. Grateful citizens talk.

They tell their neighbors; tell their friends.

The news is too good to keep. Bad backs" are numerous. So few understand the cause. Many Seymour people are learning. And, better still, they are being cured.

Lame backs are lame no more. Week ones regain their strength. This is the every-day labor in Seymour.

Of Doan's Kidney Pills. Our citizens are making it public. Here's a cause of it:

Mr. Samuel Bahner, of St. Louis avenue, tobaccoist says: Doan's Kidney Pills cured me of kidney trouble which had caused much annoyance and suffering. I had lameness in my back especially acute when I brought any train on the muscles of my loins and that was also a bladder difficulty. Learning of Doan's Kidney Pills sold by C. W. Milhous, druggist, I procured a box and almost at once obtained positive relief. I had previously tried many other remedies but never found anything to equal Doan's Kidney Pills. I can strongly recommend them to others."

For sale by all dealers, price 50 cts. Foster-Milburn Co., Buffalo, N. Y. sole agents for the U. S. Remember the Doan's and take no other.

Stricken with Paralysis.

Henderson Grimet, of this place, was stricken with partial paralysis and completely lost the use of one arm and side. After being treated by an eminent physician for quite a while without relief, my wife recommended Chamberlain's Pain Balm, and after using two bottles of it he is almost entirely cured.—GEO. R. McDONALD, Man, Logan county, W. Va. Several other very remarkable cures of partial paralysis have been effected by the use of this liniment. It is most widely known, however, as a cure for rheumatism, sprains and bruises. Sold by C. W. Milhous.

A UNIQUE SENTENCE.

THE NOVEL PENALTY A JUDGE IMPOSED UPON TWO MEN.

Both Prisoners Were Condemned to Jail Until One of Them, a College Graduate, Taught the Other How to Read and Write.

Along in the seventies the late Judge Arnold Kregel was holding court at Jefferson City, relates an old timer, when there appeared before him two men charged and indicted for a violation of the United States laws, one of whom will be called Brown. He was charged with cutting timber on the public domain. Brown was about 40 years old and had been reared on the border in Arkansas and never had any opportunities for schooling, hence was unable to read or write. In his endeavors to get a living he had cut timber suitable for making ax handles on United States lands, which led to his arrest and imprisonment. The other man will be called Jones, for the real name of both men are not known in the memory of any one who witnessed the incident.

Jones was charged with and indicted for having sold liquor to the Indians. Mr. Jones was a native of New York, a graduate of Union college and was educated for a lawyer. He possessed a highly cultured mind, a good Latinist and thoroughly scholarly in all sorts of books. Not succeeding in his profession in his native state, more from lack of application than otherwise, he left that country and plunged into the great west and located nobody knew where, but he drifted into the lower strata of society, and to obtain the necessities of life he resorted to "bootlegging" among the red men of the Indian Territory border. His arrest and imprisonment followed.

The two men were arraigned before Judge Kregel and the indictments read. They both pleaded guilty and threw themselves upon the mercy of the court. The court questioned both prisoners at length and drew from each his history. He recounted the wrongs they had been guilty of against society. He did this in a kindly tone and manner, suggesting in a mild form that both might have been useful members of some community had they sought honorable means and methods to secure a livelihood.

The court seemed puzzled how to assess a punishment that would meet the ends of justice and protect the government, its lands, its wards and society. Finally, sitting upright in his chair, looking over his glasses as both men stood before him, in a voice both loud and more positive than usual he said:

"Mr. Brown, it is the sentence of the court that you be confined in the Cole county jail until you are educated to read and write." The judge then turned his eyes upon the other prisoner at the bar and, possibly in a louder voice, said, "Mr. Jones, it is the sentence of the court that you be confined in the Cole county jail until you have taught Mr. Brown to read and write, and I enjoin upon every keeper of the jail to afford you every facility possible with the safe keeping of his prisoners."

The lawyers and spectators in court looked with astonishment at each other as the sentence was concluded, and the marshal led the prisoners out of the courtroom.

It was the second term of the court after this incident when the marshal conducted Brown and Jones into court, and it was announced by the clerk that Brown had completed his education—ready to graduate—able to read and write. Judge Kregel looked over his glasses and asked that the prisoner give him an evidence of his being able to read. Brown stood up and read a few paragraphs from a newspaper to the satisfaction of the court, when he said, "Mr. Clerk, will you let him sit at a table and write me a letter?"

Paper, pen, ink and a seat were furnished Brown, who went to work to write a letter to the court. For some time the poor fellow struggled with the task, and in the meantime Jones was very nervous, fearing he would be compelled to go back to jail and "take up school" again. Finally the clerk said, "May it please your honor, the prisoner can write, but cannot form sentences to make it intelligible."

"Mr. Clerk," said the court, not taking his eyes from the court docket he was looking at, "you will dictate a letter for him and see what headway he makes with that." The clerk dictated a letter that the prisoner wrote quite readily, which subsequently was passed up to the court, who read the same and after giving the prisoners a short lecture both were discharged and walked from the courtroom free men.—Jefferson City Tribune.

Fish That Change Color.

It has been found that certain prawns, common along the coasts of England, change their color at least every 24 hours in order to harmonize with the stronger or weaker light prevailing near the surface or in the deeper water. As evening approaches these fish lose their distinctive day colors, and all assume a transparent azure hue. The change begins with a reddish glow, followed by a green tinge which gradually melts into blue. The day and night change has become so habitual that specimens kept in perpetual light or perpetual darkness nevertheless undergo the periodic alteration of color.

Dietary Repartee.

"I think," said A. Bronson Alcott is one of his conversations, "when a man lives on beef, he becomes something like an ox. If he eats mutton, he becomes sheepish, and if he feeds upon pork may be not become swinish?" "That may be," said Dr. Walker. "but when a man lives on nothing but vegetables I think he is apt to be pretty small potatoes."

A NIGHT ATTACK.

The Deadly Grip of an Invisible Hand.

The climax of some of the most weird ghost stories is reached in the choking grip of an unseen hand upon the throat of a sleeping victim. We are constantly proving that the most fantastic stories may have some basis in actual fact. It is so in the case of the strangling grip of the invisible hand. The man who has had a night attack of severe bronchitis, knows the choking and gasping which follow the paroxysm as if some hand was tightening on the air passages, and the victim was slowly suffocating. Bronchitis can be cured. Coughs and lung troubles generally can be cured by the use of Dr. Pierce's Golden Medical Discovery.

"I wrote to you for advice and you advised me to take 'Golden Medical Discovery' and 'Pleasant Pellets,' which

I did, and to my surprise got well," writes Mr. Joseph A. Vallery, of Forman, Ill. (Box 3). "Had what the doctors called bronchitis, and whenever I would take cold would suffer greatly; but since taking two bottles of Dr. Pierce's Golden Medical Discovery and one bottle of his 'Pleasant Pellets' have been cured of that terrible trouble. Before taking your medicine I weighed 120 pounds; now I weigh 130."

THE FATAL END.

Thousands of people die every year of consumption. Every one of those thousands might have cured the cough or lung trouble which ended fatally. There is no cough, however trivial, that does not have in it the germ of consumption. When bronchitis develops, the possibility of a cough ending in consumption is increased to a probability. It is no time to use cough medicines, syrups and opiates. The need is for some healing medicine, which will not only cure the cough but heal the inflamed and diseased tissues. That is the work performed by "Golden Medical Discovery." It cures coughs. But it does far more than that. It cures weak and bleeding lungs. It takes the weak, emaciated, tottering victim, for whom the bony hand of consumption is already outstretched, and leads him back to health. It has done this in hundreds of cases where hemorrhages were severe and frequent, emaciation far advanced, and the right-sweat and hectic fever seemed to set the seal of doom upon the weakening life.

"I wish to inform you that I consider your medicine the best ever put before the public for lung and throat trouble, general debility and female weakness," writes Mrs. V. B. Miller, of South Bend (River Park, Ind.). "I have been a great sufferer for several years with bronchitis, catarrh of stomach and female weakness. Was so bad off this spring did not think could live until now. Could neither eat nor sleep, could not be on my feet but a short time, had a terrible cough, was very thin and nervous. I began using Dr. Pierce's medicines and have taken them steadily since last May, have taken nine bottles of each kind, 'Golden Medical Discovery' and 'Favorite Prescrip-
